Hon. W. H. Rice and party returned Friday from a week-end stay at the Haena beach house.

Last Sunday was a gala day for the people of Hanalei. The occasion was a real old-fashioned German picnic, held among the pine groves on the Hanalei beach.

Mr. Schriber, who had been placed in charge of refreshments, appeared on the ground about 9 a. m., and not everything in readiness when the crowd arrived. Everybody brought along something good to eat and the day was spent in rollicking merriment making juvenile sports, each picking out an appointing himself or herself, an individual fun committee.

HOFFMANS CELEBRATING WEDDING ANNIVERSARY

Mr. and Mrs. Theodore Hoffman are keeping open house for their friends today at 1555 Piikoi street, in honor of the twentieth anniversary of their wedding. The Hoffmans have been residents of Honolulu for nineteen years, coming to Hawaii in 1893, a year after their marriage in San Francisco.

Mr. Hoffman came over at the instance of the late Alexander Young to accept a position with the Hawaiian Electric Company. For the past nine years he has been chief engineer and electrician at the Alexander Young Hotel.

Both Mr. and Mrs. Hoffman are lodge members. Mr. Hoffman being a Mason and Mrs. Hoffman a member of the Eastern Star. She is also a member of the Episcopal church and deeply interested in charitable and social work.

MRS. H. A. TOWNSEND DOES GOOD WORK FOR HAWAII

Most effective promotion work for Hawaii has been accomplished by Mrs. Harriet A. Townsend in an article which she contributed to the August number of The Simmons Magazine, entitled "The Tourist in Hawaii."

Mrs. Townsend, who is an aunt of Mrs. E. O. White and who lived here for a number of years, is thoroughly conversant with conditions and her article covers the natural attractions of the islands in a way which should have its effect on those of the mainland who would travel.

WOMEN ACTIVE IN MANY LINES

The clubwomen of Colorado are to erect a woman's building at the University of Colorado in memory of Mrs. Sarah Platt Decker. The building will be for the use of needy women students at the university. Mrs. Decker was a former president of the National Federation of Women's Clubs and at the special request of Governor Shafroth her body lay in state in the Capitol of Colorado for two hours before burial. During this time all the city and county offices were closed by order of the Mayor of Denver. It was the first time in the history of Colorado that such an honor was accorded a woman.

Miss Florence E. McArdle, for the past two years in charge of the women's department of the employment bureau connected with the University of Boston, declares that 75 per cent. of the women students of the university are obliged either wholly or in part to earn money to pay their way. More than half of these students have gradually come to accept employment as semi-governesses or semi-servants.

"One great trouble about providing work for the girls," says Miss McArdle, "is that the opportunities for work are so much more limited for them than for the men. So far the most feasible plan, in my opinion, is for them to live neat and board free in a family and to do a share of the household work in return. In no case do we let a girl go into a household in which she is put to eat with the servants or is not allowed to eat with the family." Miss McArdle is a graduate of the Boston University of the class of 1912 and worked her way through as head of the employment bureau for women students.

Miss Ellen Hayes, professor of astronomy in Wellesley College, is a candidate for Secretary of State for Massachusetts. She expects the aid of the suffragists in her campaign.

"A quiet college professor, even a teacher of astronomy in a woman's college, may be a live member of the Commonwealth," Miss Hayes declared when discussing her position as a candidate. "Whether there is one woman or two or none at all, it is, as I view it, a matter of no special importance. The point that is of importance is that the day is at hand when women are to be recognized as human beings and in that capacity they are to assume the duties and acquire the rights of citizens."

Miss Winnifred Whitcomb of Everett, Mass., is the youngest woman lecturer in this country. She is a regularly appointed lecturer for the Everett grange and takes an active part in ritualistic work whenever a degree is to be conferred. She is 15.

Karl A. Richers of Salem is a rival of the girl lecturer of Everett. He has just celebrated his eleventh birthday and has been delivering his lecture, "A City Boy's Vacation on a Farm," for more than a year. Last winter he lectured before every class in the Saltonstall School and in the Pummer Farm School as well as before various boys' clubs.

Miss Florence Marshall has been appointed principal of the Manhattan Trade School for Girls. Before being called to take her new office in New York Miss Marshall was the superintendent of the women's department of the Industrial Educational Board for Massachusetts. While in Boston she was largely responsible for the establishment of the Boston Trade School for Girls. Miss Marshall thinks that New York has the greatest opportunity in the world to prove the value of trade training for women.

Mrs. Elizabeth A. Reed of Chicago has the distinction of being the only woman in the world whose work has been accepted by the Philosophical Society of Great Britain. For more than two years her book on Persian and Hindu literature was sent to the rounds among the leading scholars of the world and finally passed the test and was accepted by the British society.

For a number of years Mrs. Reed was the president of the Illinois Woman's Press Association. She is a member of the International Congress of Orientalists, Royal Asiatic Society, and Victorian Institute. She is a native of Winthrop, Me., and mother of the late Myrtle Reed, the novelist.

The Florence Crittenden Association has now seventy-three homes in the United States and five are maintained in as many other countries. More than 5000 women were assisted by these homes during the past year. In the United States the homes are scattered from the Atlantic to the Pacific, from Fargo, N. D. to Houston, Tex., and Atlanta, Ga. For a number of years Mrs. Diaz was the president of the home in the city of Mexico. There is a home in Japan and another in Shanghai. These homes all bear the name of a New York girl, the only child of the man who started the work.

GETTING READY FOR FERRIS HARTMAN CO.

Special arrangements are being made by Colonel Stone, advance man for the Ferris Hartman Comic Opera Company, due here on the China, Friday, to prepare the stage of the Opera House for the comic operas which Hartman proposes to produce here during his three weeks' stay in Honolulu. Not that the stage needs much fixing, but comic opera, especially such a production as "The Toy Man" or "The Campus," calls for special stage effects, lighting, scenery and the like. Stone is busy getting things in shape.

Speaking of the requirements of the musical comedy, which perhaps is a better term than comic opera in describing the kind of entertainment Ferris Hartman provides, Colonel Stone said yesterday that the greatest of the needs is for pretty girls. "You have no idea how hard we have to work to get just the kind we want. And how hard they are to keep. In the first place we have to weed out the stage-struck and ugly from among the crowd of applicants that answer any advertisement for such, and in the second we have to play mothers and fathers and chaperones to keep them from getting married the first chance that comes along."

MISS POWER RETURNS.

Miss Power's millinery parlors in the Boston building are now the center of an admiring throng on account of the beautiful display of trimmed hats which Miss Power purchased during her recent trip East. Admirers of things beautiful in the millinery line are cordially invited to see this stock.

In the kingdom of Saxony a new school bill is before the Landtag. Some of the proposals are: Licenses required for teachers in private as well as public schools; supervision of regular school subjects by the clergy; abolished; attendance upon continuation schools made obligatory for girls as well as boys. Religious instruction continues to be compulsory, despite the agitation against it.
